Verdict for Dr. Pierce

AGAINST THE Ladies' Home Journal.

Sending truth after a lie. It is an old maxim that "a lie will travel seven leagues while truth is getting its boots on," and no doubt hundreds of thousands of good people read the unwarranted and malicious attack upon Dr. R. V. Pierce and his "Favorite Prescription" published in the May (1904) number of the Ladies' Home Journal, with its great black display headings, who never saw the humble, groveling retraction, with its conspicuous heading, published two months later. It was boldly charged in the slanderous and libelous article that Dr. Pierce's Favorite Prescription, for the cure of women's weaknesses and ailments, contained alcohol and other harmful ingredients. Dr. Pierce promptly brought suit against the publishers of the Ladies' Home Journal, for \$300,000.00 damages.

Dr. Pierce alleged that Mr. Bok, the editor, maliciously published the article containing such false and defamatory matter with the intent of injuring his business, and that no alcohol, or other poisonous, or habit-forming drugs, or even were, contained in his "Favorite Prescription"; that said medicine is made from native medicinal roots and contains no harmful ingredients whatever; and that Mr. Bok's malicious statement, of its small type and made in a sensational manner, was a gross libel.

The facts were also proven in the trial of the case in the Supreme Court of the United States, where the judgment was given in favor of Dr. Pierce, and the Ladies' Home Journal was ordered to pay to him the sum of \$300,000.00 damages. The judgment was given in favor of Dr. Pierce, and the Ladies' Home Journal was ordered to pay to him the sum of \$300,000.00 damages.

South Hill Social

SOUTH HILL, VA., December 15.—Mr. and Mrs. D. T. Yancey entertained for their little son, Master James Clayton Yancey, December 10th from 3:30 to 5:30, in honor of his fourth anniversary, the whole house being darkened and brilliantly illuminated with hundreds of bright colored candles, and the merry faces of the little guests reminded one of fairyland. Master Yancey was the recipient of beautiful presents, numbering from seventy-five to one hundred, many coming from a distance. Quite an enjoyable feature was the presentation by Master Yancey to his little friends of ten balloons in the most animal shapes, which added greatly to the pleasure and noise of the occasion.

About 5 o'clock the little ones were ushered into the beautiful and spacious dining room, where everything in the way of refreshments were served to the little ones.

A unique feature of the occasion being a reproduction of the costumes worn by the little ones. The "grown up" little ones entered thoroughly into the spirit of the occasion, both "grown up" and little folks were indebted for the afternoon and evening's pleasure to the hospitality of the very popular host and hostess, Mr. and Mrs. Yancey. EMPEROR WILLIAM WATCHES U. S. AND JAPAN

Is Interested to Know the Personal Views of the President.

BERLIN, Dec. 15.—The relations between the United States and Japan excite extraordinary interest both in government and diplomatic circles here.

Emperor William discussed the question regarding President Roosevelt's personal views on the subject. It is believed that Russia's more resolute attitude against Japan's requests for trade and colonization rights on the Amur river and in Siberia and for national privileges on the adjacent Russian coast is partly due to the discussion of the California school question between the United States and Japan. The Russian foreign office has been subjected to steady diplomatic pressure on the part of Japan in the effort to obtain these far-reaching rights. The result is that the idea has been created at the Russian foreign office that Japan might make her ambitions the occasion for a renewal of the war with Russia.

Among German military and naval officers the possibility of a conflict between the United States and Japan has been quite freely discussed and the professional views appear to agree that Japan would take the Philippine Islands and place upon the United States the necessity of conducting across the Pacific prolonged sea and land campaigns which would add to the Japanese the expense of great natural obstacles.

It was known here in Berlin that the British admiralty had considered seriously the possibility of war between Japan and the United States as likely to occur within twenty-five years and some of the British naval staff are reported to have expressed the belief that the conflict would occur within five years.

It may seem, it is certain that several European States are anxious to present a united front regarding the temper of the Japanese people and the government of Japan.
